

DOI Work Activity 1C: Manage Helium

Program Area:	Resource Use – NON-ENERGY MINERALS
End Outcome Goal:	UEO 3 – LAND-RELATED RESOURCES – Manage or Influence Resource Use to Enhance Public Benefit, Responsible Development, and Economic Value
Intermediate Outcome:	This activity does not align to an intermediate outcome
DOI Sub process:	4a – Manage use of resources

Examples/Notes:

Work Activity Description: All work associated with the Federal helium program in three functional areas: crude helium sales ("in-kind" and bulk); crude helium storage operation (federal and private); and fee sales and royalty from helium on Federal lands. These include all administrative and mission related activities such as: contract administration of "in-kind" sales; administration of bulk (open market) sales; transmission of crude helium; storage crude helium-private; maintenance of Cliffside reserve; maintenance of pipeline & gas field; operation of laboratory facilities for investigative work related to program needs; sample analyses; quality assurance; identification of potential payers; adjudication of helium ownership; collection and accounting for revenues; audit payments; performance of surveys to locate and evaluate helium reserves in natural gas; and dissemination of information about helium and the helium program to Federal agencies and the public. Closure operation activities are included in this work activity including: disposal of personal property; disposal of real property; preservation of historic properties; and assessment and remediation of environmental issues.

This work activity also includes all work necessary to authorize specific activities support costs; all costs to perform records management, costs associated with coordinating with other offices and industry.

Output: Quantity of helium sales.	Unit of Measure: Million cubic feet of helium (MMcf) sold.
